SEOIL U-Straws

- SEOIL invented U-straw which revolutionized portion packaging market by eliminating the size limit of conventional straight straws.

- U-straw has a set of corrugations which makes it bendable thus fits in small packages with a small side wall.

- Also, it gets long enough to reach the bottom of the drink when unfolded to its full length which brings extra convenience to customers.

- U-straw is the most cost effective and easiest solution to implement which suits a various shapes and sizes of single portion packages.

Z Straws

SEOIL Z Straws

- Z-straw is a U-straw with an additional set of corrugations.

- It offers extra ease of drinking with less spillage preventing siphoning effect and provides extra fun for children to play with Z-straw like a toy.
